

**Listing of Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (currently amended) A photographic article comprising a base material carrying at least one layer comprising a photographic image formed by combination of dyes formed from couplers wherein an area of said at least one layer carrying a photographic image is overprinted, in registration with said photographic image, with printing ink and wherein said printing ink mordants into the upper layer of said photographic article, wherein the upper layers of said article are permeable to aqueous developing solution which allows aqueous photographic developing there through.

2. (original) The photographic article of claim 1 wherein said base material has a non-neutral color.

3. (canceled).

4. (previously presented) The photographic article of claim 1 wherein said overprinting is above low density areas of said photographic image.

5. (original) The photographic article of claim 2 wherein said base material comprises indicia.

6. (original) The photographic article of claim 5 wherein said indicia comprises print.

7. (original) The photographic article of claim 5 wherein said indicia comprises an image on said base.

8. (original) The photographic article of claim 1 further comprising an adhesive layer below said base.

9. (original) The photographic element of claim 8 further comprising a strippable liner attached to said adhesive layer.

10 - 12 (canceled).

13. (original) The photographic article of claim 7 wherein said image comprises a repeating pattern.

14. (original) The photographic article of claim 13 wherein said repeating pattern comprises a machine-readable pattern.

15. (previously presented) The photographic article of claim 1 wherein said printing ink has a dot gain of less than 20%.

16. (previously presented) The photographic article of claim 1 wherein said printing ink has a dot gain of less than 10%.

17. (canceled).

18. (canceled).

19. (previously presented) The photographic article of claim 1 wherein the upper layer of said photographic article comprises an environmental protection layer for said photographic image.

20. (original) The photographic article of claim 1 further comprising magnetic recording materials.

21 - 34 (canceled).
